

## Expertos Internacionales del Comité Técnico de Normalización para Aislantes Térmicos

### CTN-UNE 92

| Grupo de Trabajo o Comité Internacional   |  | Empresa          |
|---|--|------------------|
| <b>CEN/TC 107/WG 2</b>                    | Basic consideration                              | UPONOR           |
| <b>CEN/TC 107/WG 14</b>                   | District cooling                                 | UPONOR           |
| <b>CEN/TC 88/WG 1</b>                     | Common general test methods                      | CEIS             |
| <b>CEN/TC 88/WG 2 +<br/>TG CPR ACQUIS</b> | Coordinating group                               | URSA             |
|   |  | ANDIMAT          |
|   |  | KINGSPAN         |
| <b>CEN/TC 88/WG 3</b>                     | Mineral wool                                     | KNAUF INSULATION |
|   |  | URSA             |
| <b>CEN/TC 88/WG 4</b>                     | Expanded polystyrene foam (EPS)                  | ANAPE            |
| <b>CEN/TC 88/WG 5</b>                     | Rigid cellular polystyrene, extruded             | URSA             |
| <b>CEN/TC 88/WG 6</b>                     | Rigid cellular polyurethane and polyisocyanurate | KINGSPAN         |
| <b>CEN/TC 88/WG 10</b>                    | Building equipment and industrial installations  | KINGSPAN         |

| Grupo de Trabajo o Comité Internacional |  | Empresa         |
|---|--|-----------------|
| <b>CEN/TC 88/WG 15</b>                  | In situ formed insulation products   | BASF            |
|   |  | AISLA           |
| <b>CEN/TC 88/WG 18</b>                  | External thermal insulation composite systems  | ANFAPA          |
| <b>CEN/TC 88/WG 21</b>                  | Reflective insulation products   | ACTIS ISOLATION |
| <b>CEN/TC 89/WG 13</b>                  | In-situ thermal performance of construction products, building elements and structures | ACTIS ISOLATION |
|   |  | CIEMAT          |
| <b>ISO/TC 163</b>                       | Thermal performance and energy use in the built environment                            | CEIS            |
| <b>ISO/TC 163/SC 1</b>                  | Test and measurement methods   | CEIS            |
| <b>ISO/TC 163/SC 1/WG 8</b>             | Moisture content and moisture permeability   | CEIS            |
| <b>ISO/TC 163/SC 2/WG 16</b>            | Hourly data for assessing the annual energy use for heating and cooling                | TECNALIA        |
| <b>ISO/TC 163/SC 2/WG 17</b>            | Detailed calculation for thermal performance of windows, doors and shading devices     | CIEMAT          |
